

Individual Development Plan (IDP) Training Program

High-Level Design Document

📈 Addressing Low Completion Rates | Americas Region

Prepared for [Client Name]

[Your Name], Instructional Designer

Version 1.0

The Challenge — A Persistent Completion Gap Demands Action

CONTEXT

- 3rd-year regional IDP initiative — yet completion rates remain critically low
- Americas Region ranks in the **bottom 3 out of 12 regions** globally
- Previous vendor-developed program was **rejected by senior HR leadership**
- Status quo is not acceptable: talent development outcomes are at risk

THE SOLUTION

- A new, internally aligned **two-track training program** designed for:
- **Track 1:** Leaders (Executives + HR)
- **Track 2:** Managers & Employees

🎯 Primary Goal

Drive a **significant Q1 completion-rate increase** and exit the bottom-3 ranking.

IDP Completion Rate: Current vs. Target

Business & Program Goals Are Tightly Aligned

BUSINESS GOAL

Improve talent management effectiveness through higher-quality Individual Development Plans across the Americas Region.

PROGRAM GOAL

Equip leaders, managers, and employees with the right **attitude, motivation, knowledge, and skills** to value, create, and sustain effective IDPs in the CRM system.

THE CONNECTION

Better-trained people

Higher-quality IDPs

Higher completion rates

Stronger talent pipeline

Two Audiences, One Cohesive Solution

AUDIENCE	ROLE	DELIVERY MODALITY	DURATION
Leaders (Executives + HR)	Strategic influencers & champions	In-person only (multiple locations)	3–4 hours
Managers & Employees (IDP creators & approvers)	IDP creators & approvers	Blended: Classroom + vILT	2–3 hours

WHY TWO TRACKS?

- Leaders need to **champion** the IDP process at a strategic level
- Managers and employees need **practical, hands-on skills** to create quality IDPs
- One-size-fits-all training has already failed — differentiated design is essential

Learning Objectives — Leaders Track

By the end of the workshop, Leaders will be able to:

KNOWLEDGE

Explain the strategic importance of IDPs to their teams with confidence.

ANALYSIS

Evaluate common barriers to IDP completion and propose mitigation strategies.

SYNTHESIS

Collaboratively create the "Ultimate IDP Guide" as a shared resource.

APPLICATION

Demonstrate CRM entry of objectives, performance ratings, and developmental feedback.

Outcome: Leaders leave as informed, motivated champions of the IDP process — equipped to drive accountability across their teams.

Learning Objectives — Managers & Employees Track

By the end of training, participants will be able to:

01

 KNOWLEDGE

Describe

the personal and organizational benefits of effective IDPs.

02

 ANALYSIS

Analyze

sample IDPs against established quality criteria with **≥ 80% accuracy**.

03

 APPLICATION

Create

a complete draft IDP using the Ultimate Guide at **≥ 90% quality score**.

04

 SKILL

Navigate

and use essential CRM functions proficiently.

OUTCOME

Every participant leaves with a **real, usable IDP draft** — immediate application, immediate value.

Course Map — Leaders Workshop (3–4 Hours)

DESIGN PRINCIPLE

High participation from start to finish — leaders co-create the tools their teams will use.

Course Map — Managers & Employees (2–3 Hours)

DESIGN PRINCIPLE

Scenario-based and immediately applicable — participants build their own IDP during the session.

Instructional Strategies Grounded in Adult Learning Principles

LEADERS TRACK

- **Inquiry-based & collaborative:** Co-create the Ultimate IDP Guide during the session.
- **High-participation dialogue:** Leverage peer contribution and shared experiences.
- **Strategic focus:** Emphasize the "why" before the "how" to build genuine buy-in.

MANAGERS & EMPLOYEES

- **Scenario-based learning:** Analyze realistic examples against quality criteria.
- **Hands-on CRM practice:** Navigate the actual system used for performance management.
- **Immediate application:** Everyone leaves with a usable, high-quality draft IDP.

COMMON DESIGN PRINCIPLES ACROSS BOTH TRACKS

Adult Learning Theory

Relevance-centered and problem-focused design that respects participants' prior knowledge and time.

Inclusive Design

Strict adherence to WCAG accessibility standards and Universal Design for Learning (UDL) frameworks.

Cultural Authenticity

Integration of company culture and real organizational examples only — strictly no generic content.

Assessment & Evaluation — Measuring What Matters

LEVEL	FOCUS	MEASURE
Level 1 — Reaction	Participant satisfaction	Post-training survey score $\geq$ 4.2 / 5.0
Level 2 — Learning	Knowledge & skill gain	Pre/post assessment + IDP quality rating
Level 3 — Behavior	On-the-job application	4–6 week post-training audit of IDP completion
Level 4 — Results	Business impact	Q1 completion rate — exit bottom–3 ranking

Evaluation is not an afterthought — it is built into every stage of the program design.

8-Week Launch Timeline

🎯 **Target:** Full program launch within **8 weeks** of HLD approval.

Next Steps & Call to Action

PROPOSED NEXT STEPS

01 **Your review & approval** of this High-Level Design document
Target: end of next week

02 **Detailed storyboarding** and sample module development begins immediately upon approval

03 **Pilot session scheduling** with representative leader and employee groups

“

"The goal is not just training — it is measurable behavior change and real business results."

THANK YOU!
