5. Activity Facilitation Notes

Activity 1: Product-to-Client Matching

- Purpose: help new hires avoid pitching products before understanding client context.
- Process: place learners in pairs, assign client cards, ask them to match each situation to one product category and explain why.
- Debrief: emphasize that matching is not the same as recommending; new hires must ask discovery questions before product discussion.

Activity 2: What Could Go Wrong?

- Purpose: help new hires see common breakdowns in the sales process.
- Process: learners identify one possible mistake at each sales process step.
- Debrief: highlight discovery, follow-up, and documentation as high-risk steps for new hires.

Activity 3: Risk Language Rewrite

- Purpose: practice responsible, balanced client language.
- Process: show a risky statement and ask learners to rewrite it using clear, balanced, responsible language.
- Debrief: compliance is not separate from sales; it is part of professional client communication.

Activity 4: 30/60/90 Action Plan

- Purpose: connect the workshop to workplace application.
- Process: learners draft what to learn, practice, request as support, and use as evidence of progress.
- Debrief: managers should review and refine this plan during the first check-in.

8. Appendix: Quick Facilitation Scripts

Moment	Suggested Script
Opening	This session gives you a company-level foundation. Your manager and product team will continue to train you, but every new hire needs a shared understanding of how EuroBridge operates and how we communicate with clients.
Product overview	The goal today is not to make you product experts. The goal is to help you see the product landscape so deeper product-line training makes sense.
Compliance	Responsible language does not weaken sales. It builds long-term client trust and protects the professionalism of the conversation.
Action plan	Your 30/60/90 plan is not surveillance. It is a support structure that makes your growth visible and gives your manager clear opportunities to coach you.
